GO APPRAISE
SELF-APPRAISAL APP

GOAPPRAISE – SELF APPRAISAL APP

A free to use, downloadable app, allows you to appraise the condition of your vehicle in advance of returning it to the finance provider.

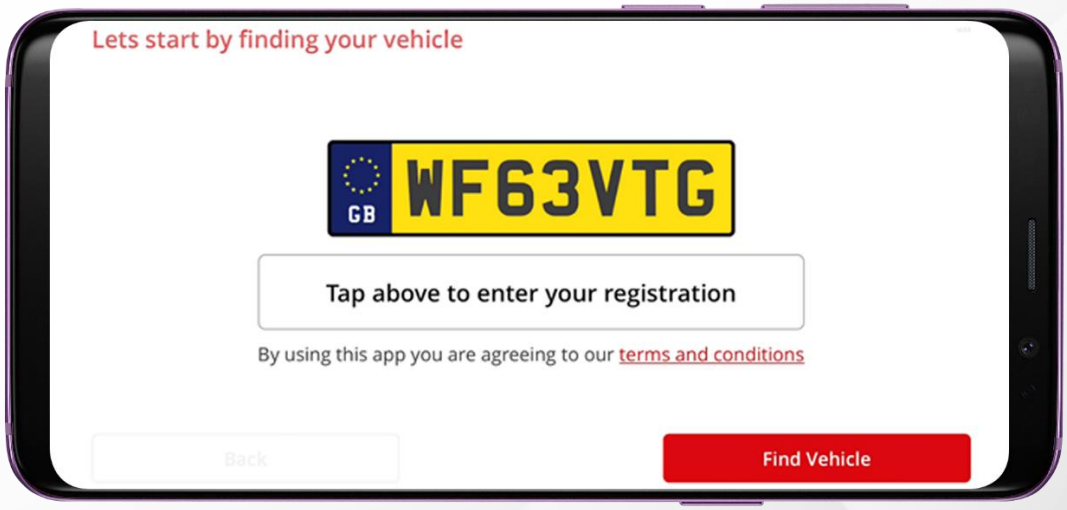

It is quick to download and available to both iOS (Apple) and Android users

To download the app, simply search ‘G3 Vehicle Appraisal App’ in either the App Store or Google Play on your mobile device. The app will take less than 30-seconds to download.

Once the app has been downloaded, select the G3 logo on your mobile device.

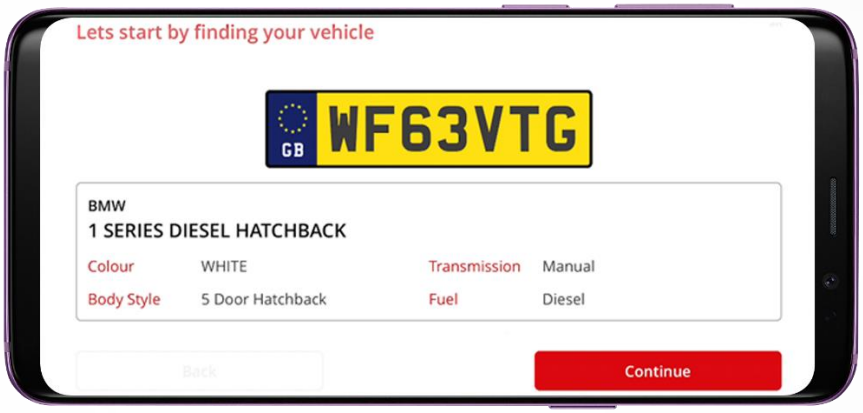

Stage 1 – Getting Started

Upon opening the app, you will be prompted to enter the registration number of the vehicle you are wanting to inspect.

Once you have finished inserting the registration, a red box will appear in the bottom right of the screen prompting you to ‘Find Vehicle’. Select this button.

The app will return your vehicle details based on what the DVLA hold against the registration number. Please check that the correct vehicle details before proceeding to ensure you are appraising the correct car.

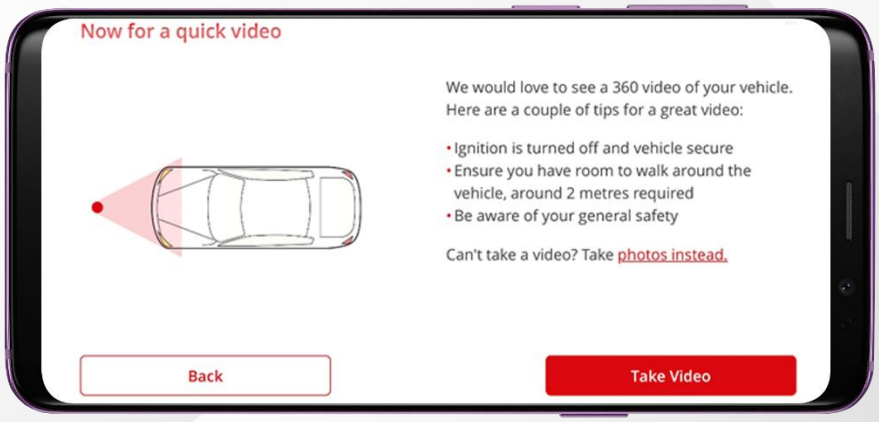

Select Continue to move onto the next stage

Stage 2 – Video Tour

You will be asked to perform a timed walk around your vehicle. Follow the prompts that appear at the bottom of the video as to where to position yourself to record the optimum video. This will take no longer than 90 seconds.

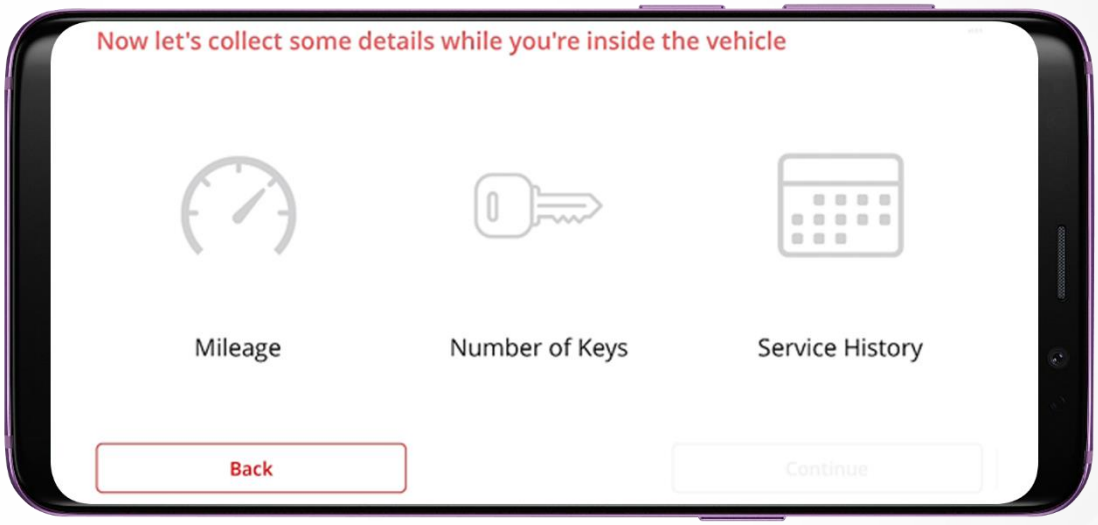

If you are not happy with the video, you can select Retake and complete the process again.

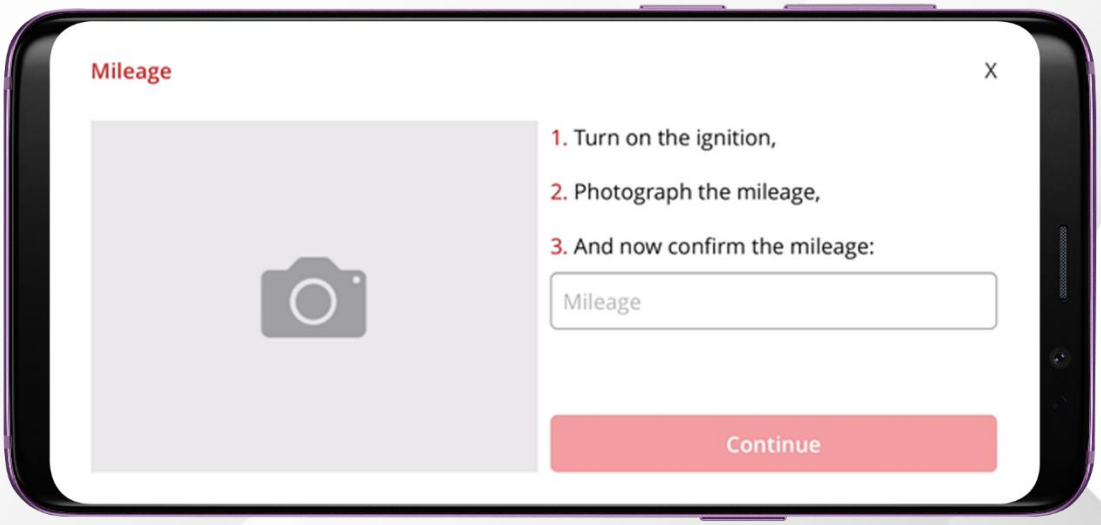

Once you are happy, select Next Step which will take you onto the next section of the appraisal.

Stage 3 – Additional Information

We now need some further information in relation to your vehicle including the mileage, number of keys and any known service history.

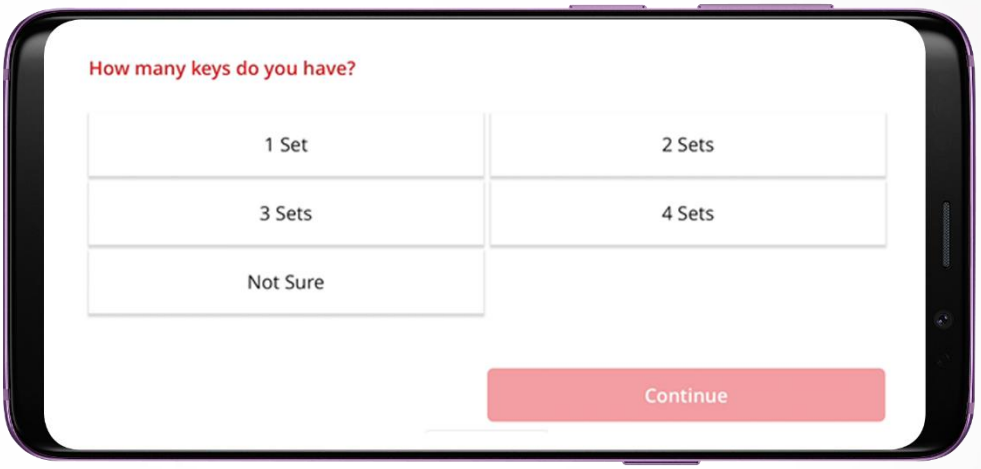

When selecting the ‘Mileage’ icon, you will be guided through how to record the mileage, using both an image and typing the speedometer reading of the vehicle.

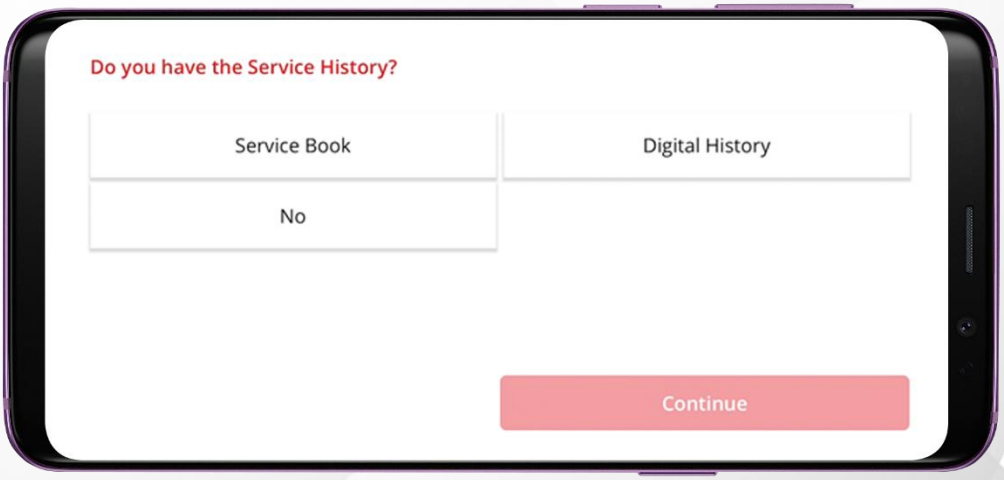

Once completed, select 

Next, you will need to select the ‘Keys’ icons. The below screen will appear:

Select the appropriate number of keys and then select Continue

Finally, select the ‘Service History’ icon. The below screen will appear:

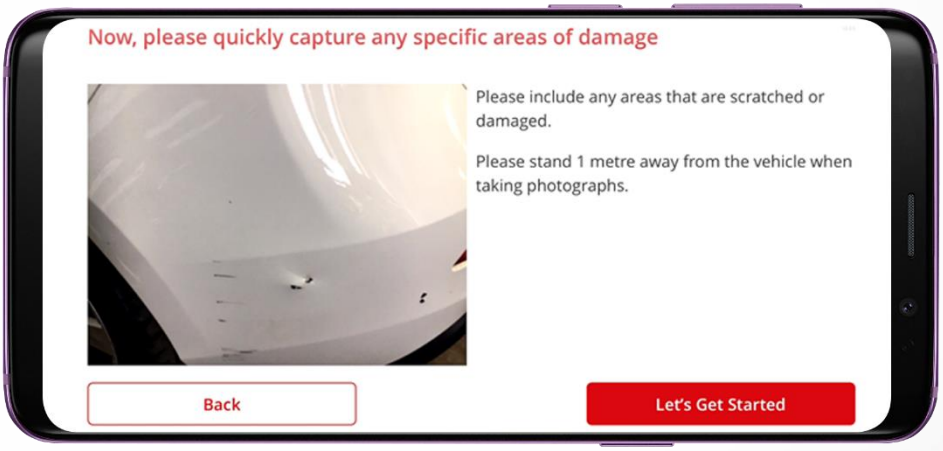

Once you have selected the appropriate box, select Continue

Stage 4 – Capturing Damage

To help us assess the vehicle further, we require additional information that highlights any visible areas of damage.

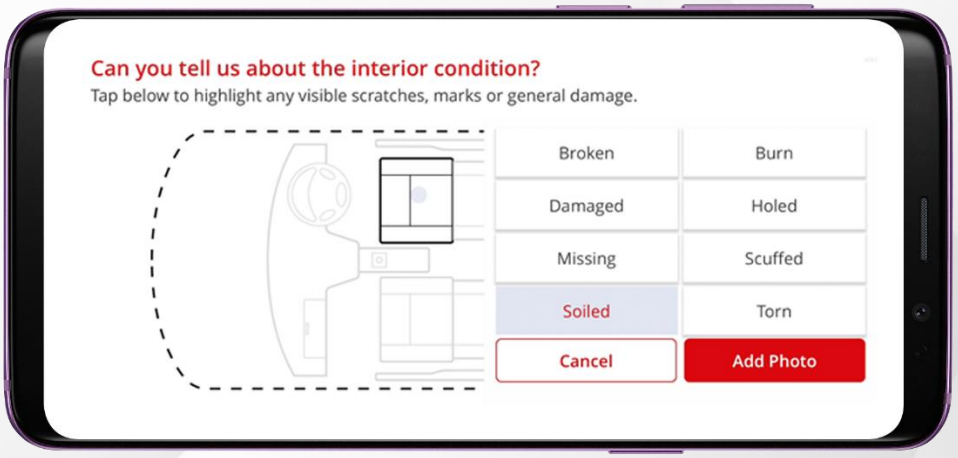

To start, select Let's Get Started

We start with the interior

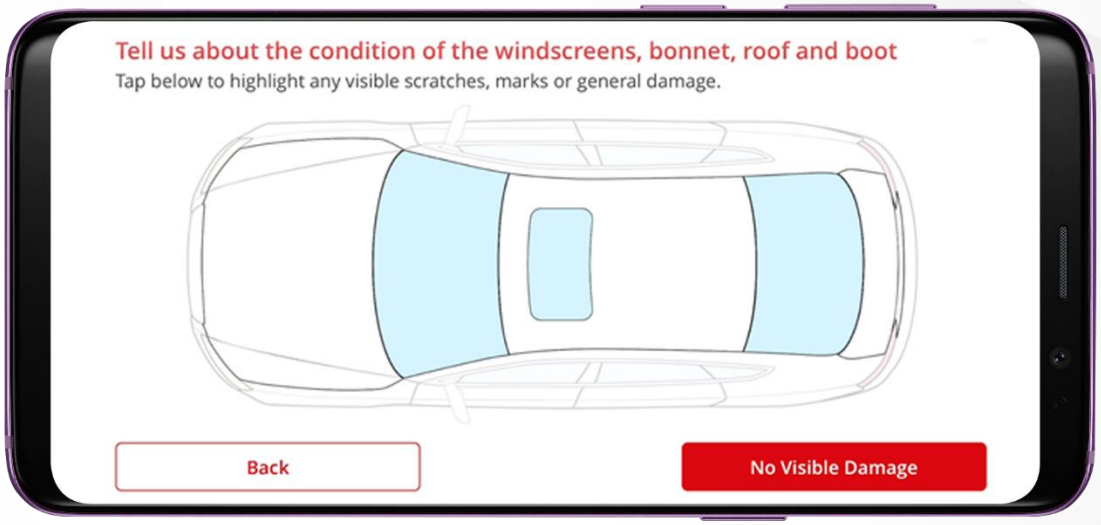

Select any areas that require attention. Once you select an area, you will be presented with a list of options. Select the most appropriate option and the app will then prompt you to Add Photo

You can add as many areas of damage as required.

Once you've finished completing the interior, you will be asked to highlight any exterior damage, starting with the top of the vehicle and working your way around.

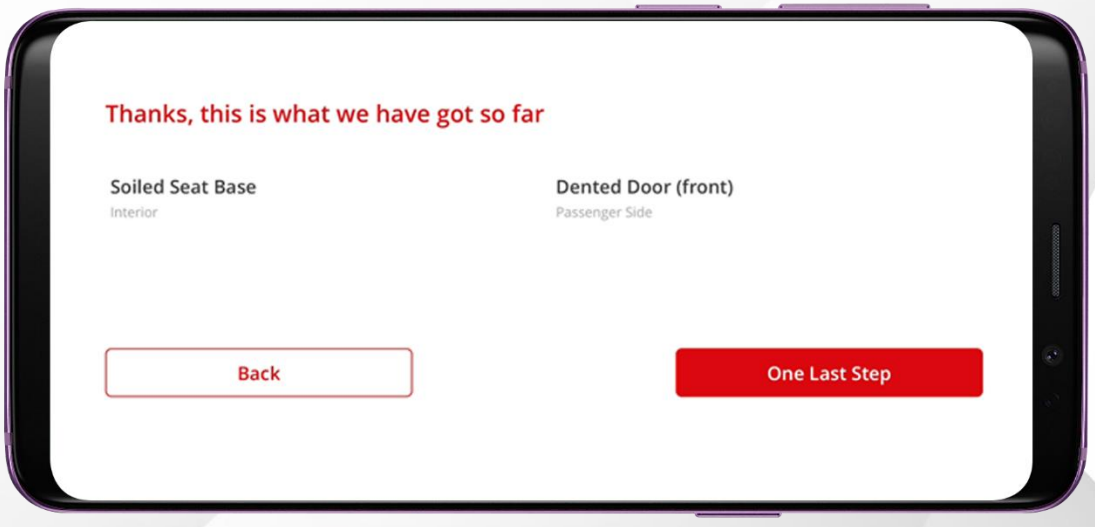

If there is no damage, select No Visible Damage

The app will guide you around the vehicle, just add any damage as necessary and take an accompanying image

Once you've finished adding all the areas of damage, you will be presented with a summary of what you've recorded.

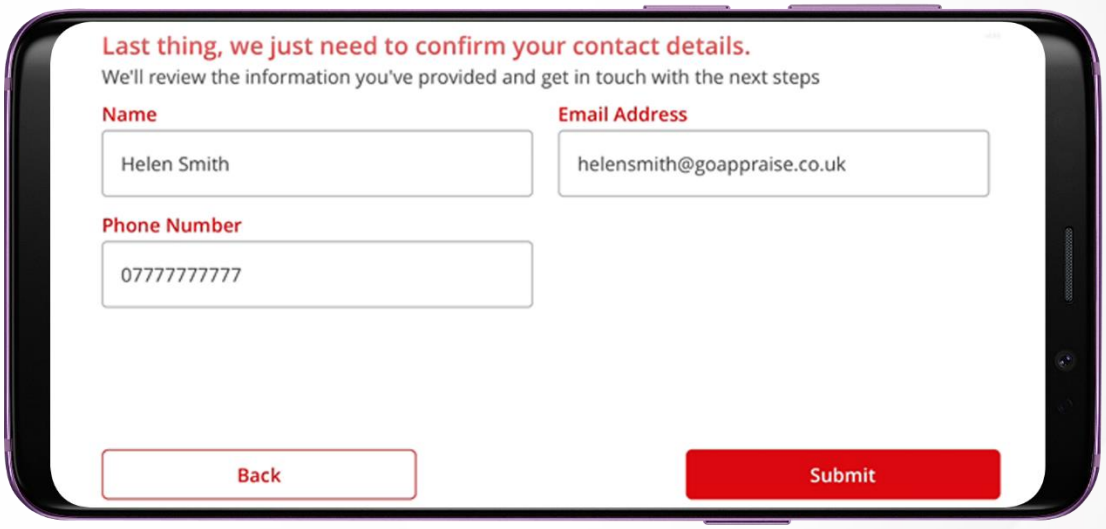

Once satisfied, select One Last Step

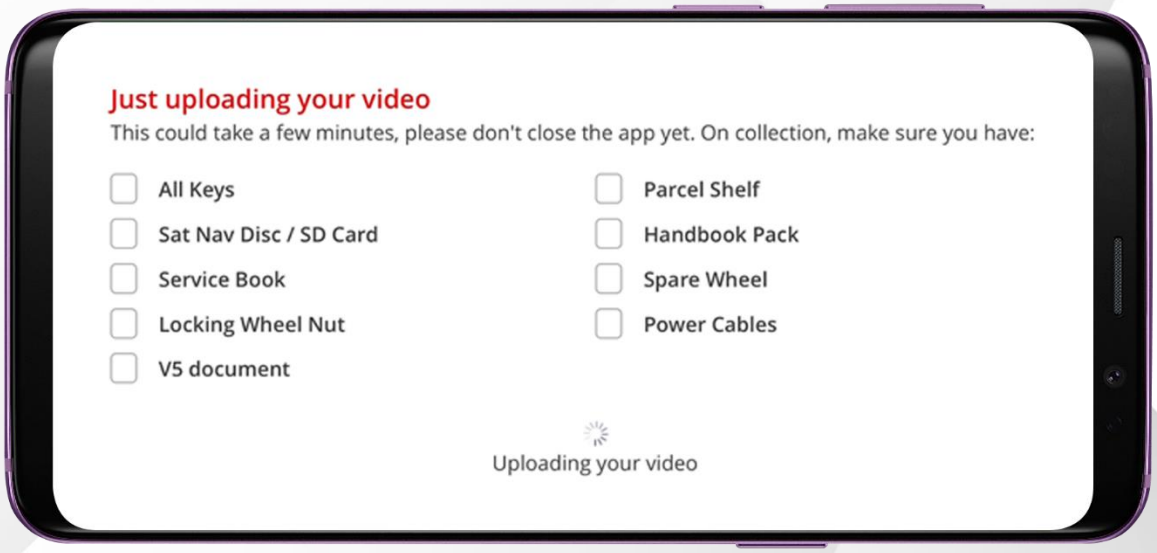

Stage 5 – Submission

Finally, we need to capture your details which will allow us to link your appraisal to your account.

Once updated, select ‘Submit’

Whilst your video and images are being submitted, can we bring your attention to the following items that all impact the potential value of your vehicle. We ask that should you proceed with the handback of your vehicle, all these items are handed over to the collection agent.

Once your appraisal has been submitted, your finance provider will be in contact with you within 7 working days of receipt.

Please note, this appraisal is not the final analysis of vehicle condition and will be subject to a further inspection once it reaches auction where additional damage may be recorded.
